Katten Muchin Rosenman Cornish Expands London Presence to Real Estate Finance

Success of Firm's Financial Services Practice leads to continued growth

LONDON – [Katten Muchin Rosenman Cornish LLP](#), the London affiliate of US firm [Katten Muchin Rosenman LLP](#), today announced its expansion to include a [Real Estate Finance Practice](#) which focuses on the structured financing of commercial real estate in Europe.

“In expanding our Financial Services Practice to London last year, we were able to quickly establish ourselves as a key advisor to the European marketplace, and we are now ideally positioned for the same type of success in Real Estate Finance as well,” said [Vincent A.F. Sergi](#), the US Firm’s managing partner.

The expansion includes the additions of English law-qualified partner [Jayne Black](#) and senior associate Eleanor Hunwicks to the Firm. [Edward Zughaib](#), who is already a partner at the US Firm, will also be a member of the London team and will oversee its full integration with Katten’s US [Real Estate Finance Practice](#).

All members of the London Real Estate Finance Practice have extensive experience advising a wide range of participants in the commercial real estate market, particularly in representing master, primary and special servicers of conduit loans, both in the US and Europe. European commercial mortgage-backed securities issuance doubled in 2005 from the previous year, with Katten’s clients acting as the servicer or special servicer in a significant number of the outstanding transactions. The combined experience of the Firm’s attorneys in the US and European real estate and CMBS markets gives them a deep and broad understanding of the increasingly complex real estate, financing and capital markets-related issues that servicers face. In addition to negotiating servicing agreements and other securitization-related documentation on behalf of their clients, the Practice advises servicers on a wide range of asset-related matters, ranging from routine loan administration, borrower requests for consent, and loan modifications, to more complex issues including restructurings and workout strategy and enforcement action.

“We already have a comprehensive US Real Estate Practice and growing demand from our increasingly global client base dictated this expansion into Europe,” said [Nina B. Matis](#), chair of the US Firm’s Real Estate Practice. “The legal skill and dedication to client service that Jayne and Eleanor possess make them valuable additions to the London practice and I look forward to working with them to strategically grow the London Real Estate Finance Practice.”
